

BUNNIES EAT PELLETS

Bunnies love crunchy little pellets of food. Volunteers place pellets in bowls in the pens.

When replenishing pellets, please follow the steps below:

1. Empty the pellet bowl into the trash and thoroughly wash the bowl.
2. Locate the fresh supply of pellets.
3. Pellet food for the bunnies is very expensive, so please use caution when filling the pellet bowls.
4. Place the replenished pellet bowl in the bunny pen.
